We love that you can earn money by doing things you already do like shop and eat. Remember it all adds up. Only a small percentage of the families in our school participates in each of these programs. Just think how much we could earn if more did. Don't go out of your way to participate in something you don't already do but if you do Shop or Eat at these businesses take a minute to link our school or cut that Box Top so we can earn the money.
